

MY THINKING SYSTEM

The practical part: Task 3

The first task in this practical part of the course concerns **the wrong opening**. In the opening, we need to develop the minor pieces first and then the heavy pieces. These are very simple tips but many players don't follow them and, for that reason, lose their games.

If you wish to become a strong player, you need to develop your pieces in the opening. If your pieces are well developed from the opening, then you are ready to start the attack in the middlegame.

In the "Games" folder, you will find nine instructive games which illustrate the main ideas of the video lesson.

1) Your task is to open the file: "1 Task –wrong opening". Use a real chessboard and re-create the position there. Study each position for 3-5 minutes.

2) Check the solutions: Open the file: "1 Answer – wrong opening" and check the solutions carefully.

Note: If you have problems finding the solutions, then please watch the video lesson again.
