

HOW TO BEAT TITLED PLAYERS

The practical part: Task 6.

The key idea of the whole concept is that you should create **problems** for your opponents. 5 weapons are the main ways how you can realize this concept practically. That's why in a real game you will use all these weapons together. This will make your style of playing very unpleasant for your opponents.

In the 6th part of the practical course you will find some games for your analysis. These games illustrate this style of playing very well.

Your task is to analyze these games deeply. Pay attention on the moves of a winner side. Find this course's ideas and remember how you can apply them in different situations. Analyze not only the game moves, but also other eventual variations.

This will help you to consolidate 5 weapons in 1 powerful playing style.
