

DEFENDING CHAMPION

The practical part: Perpetual check

The fifth task in the practical course is about the **perpetual check**. Sometimes we need to achieve the draw in a forcing way. In this case we have a very powerful tactical motive, the perpetual check.

In the “Games” folder, you will find 14 instructive games, which illustrate the main ideas of the video lesson.

1) Your task is to open the file: “Task - perpetual check”. Use a real chessboard and re-create the position there. Study each position for 3-5 minutes.

2) Check the solutions: Open the folder: “Answer - perpetual check” and check the solutions carefully.

Note: If you have problems finding the solutions, then please watch the fifth video lesson again.
