

DEFENDING CHAMPION

The practical part: Consolidation

The sixth task in the practical course is about the **consolidation**. In some cases you need to consolidate and save an almost lost Position. Before of the resignation, you should be absolutely sure that all defensive possibilities have been exhausted. This task will help you understand what consolidation is.

In the “Games” folder, you will find 7 instructive games, which illustrate the main idea of the video lesson.

1) Your task is to open the file: “Task – consolidation”. Use a real chessboard and recreate the position there. Study each position for 3-5 minutes.

2) Check the solutions: Open the folder: “Answer - consolidation” and check the solutions carefully.

Note: If you have problems finding the solutions, then please watch the sixth video lesson again.
