

## DEFENDING CHAMPION

### The practical part: Active defense and counterattack

The seventh task in the practical course is about **the counterattack**. The counterattack is one of the most important skills in chess. If you don't like to defend yourself for ever – then you need to train this skill in order to transpose a defensive into attacking position.

In the “Games” folder, you will find 8 instructive games, which illustrate the main ideas of the video lesson.

**1) Your task is to open the file:** “Task - Counter Attack”. Use a real chessboard and re-create the position there. Study each position for 3-5 minutes.

**2) Check the solutions:** Open the folder: “Answer - Counter Attack” and check the solutions carefully.

**Note:** If you have problems finding the solutions, then please watch the seventh video lesson again.
